Github link: <https://github.com/dhayalytcnj/PovertyNJ>

VM: csc415-server33.hpc.tcnj.edu
user: sysadmin@csc415-server33.hpc.tcnj.edu
pass: Operator01!

I ended up using the sysadmin account instead of student1, since rails wasn't working in student1 account.

Steps:

in terminal, type:

- 'cd vm-csc415/PovertyNJ/src/rails_starter'
- 'rails server --binding 10.18.6.33'

Then, open up a web browser, type and enter 'csc415-server33.hpc.tcnj.edu:3000/'

What's not working or done:

- NONE. Fixed both html and contact county office issues that were here before.
